

Accomplishments

Documentation

Pull-requests in Unidata's GitHub Repositories: NetCDF-C, Siphon, MetPy, and Python Training Notebooks

Education

Completed trainings for SQL, AWS S3, and Data Visualization

Attended scientific data and cloud computing conferences

Software

netCDF

Downloaded and used netCDF and libraries to provide insight on installation process for new users

MATLAB

Investigated how users employ MATLAB to work with netCDF files and access AWS S3 buckets
